

Ouverture de l'UE
«Programmation Concurrente»
(LU3IN001)
2023/2024

Fabrice.Kordon@lip6.fr

Introductory words...

2

 **Computer science is everywhere...**

 **Concurrent/parallel/distributed computing too**

 Soon, «many-core» processors

Numerous Applications

3

High Performance Computing

- Simulation in Physics, Image processing

Telecommunication management

- Audio, data

Enterprise systems

- Trading, Finance

Universe exploration

- Constellation of satellites (to build very large virtual telescopes)

Smart Cities

- Internet of things

Health

- Body Area Networks

Transports

- See next slides

Etc

Numerous Applications

3

High Performance Computing

- Simulation in Physics, Image processing

Telecommunication management

Enterprise systems

- Trading, Finance

Universe exploration

- Constellation of satellites (to build very large virtual telescopes)

Smart Cities

- Internet of things

Health

- Body Area Networks

Transports

- See next slides

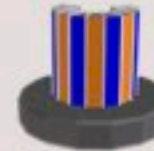

Etc

Shortly!

In such areas, computer scientists must master concurrent programming

Automobile as an example

4

 **Everything is connected...**

 Even the vehicle itself...

Automobile as an example

4

 **Everything is connected...**

 Even the vehicle itself...

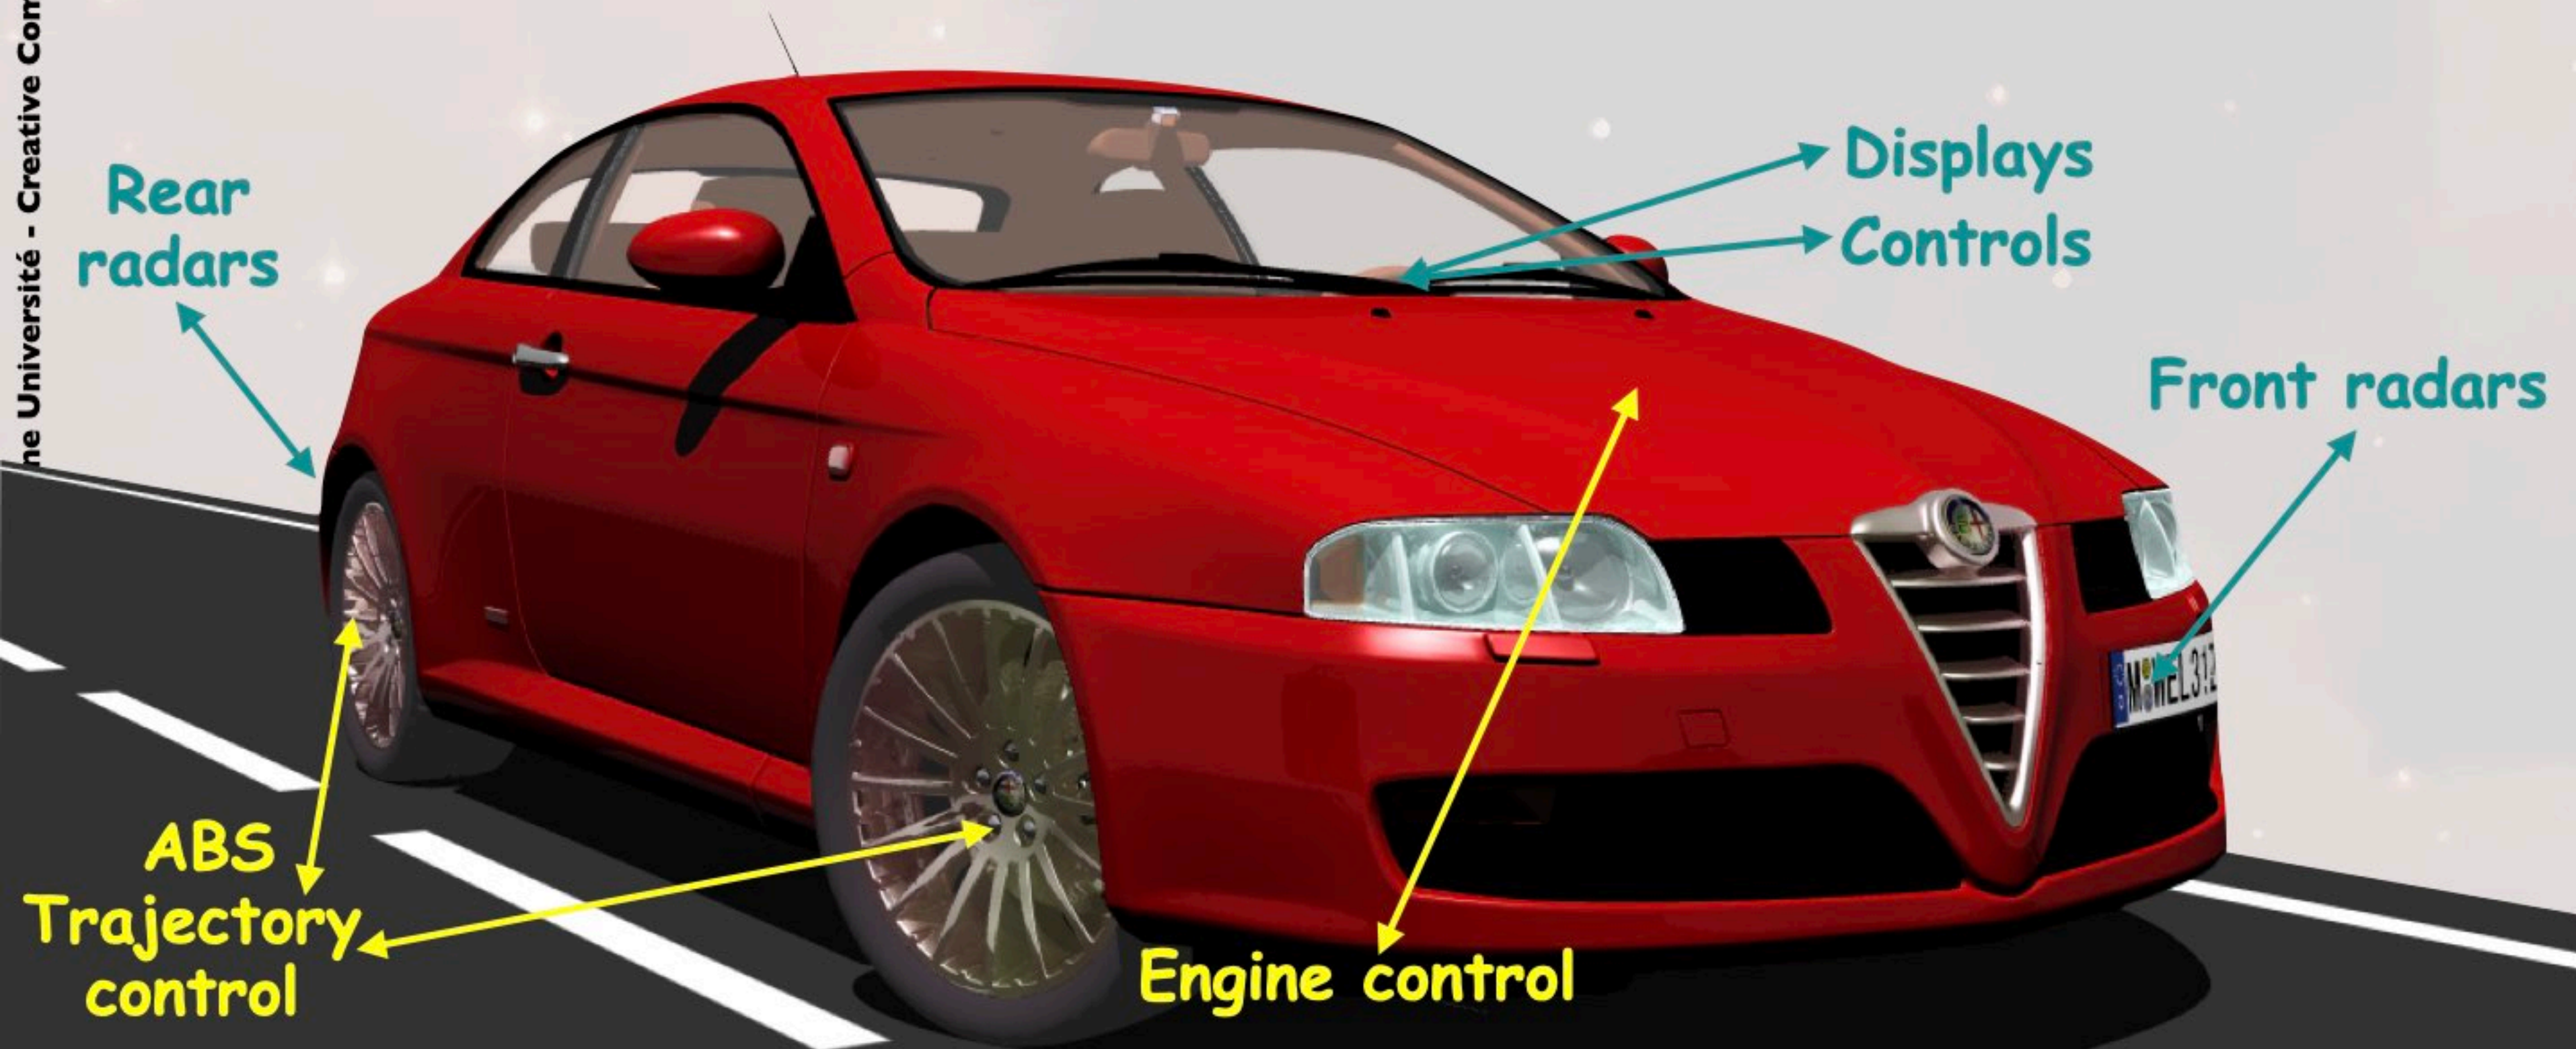

Automobile as an example

4

 **Everything is connected...**

 Even the vehicle itself...

ne Université - Creative Commons 2023

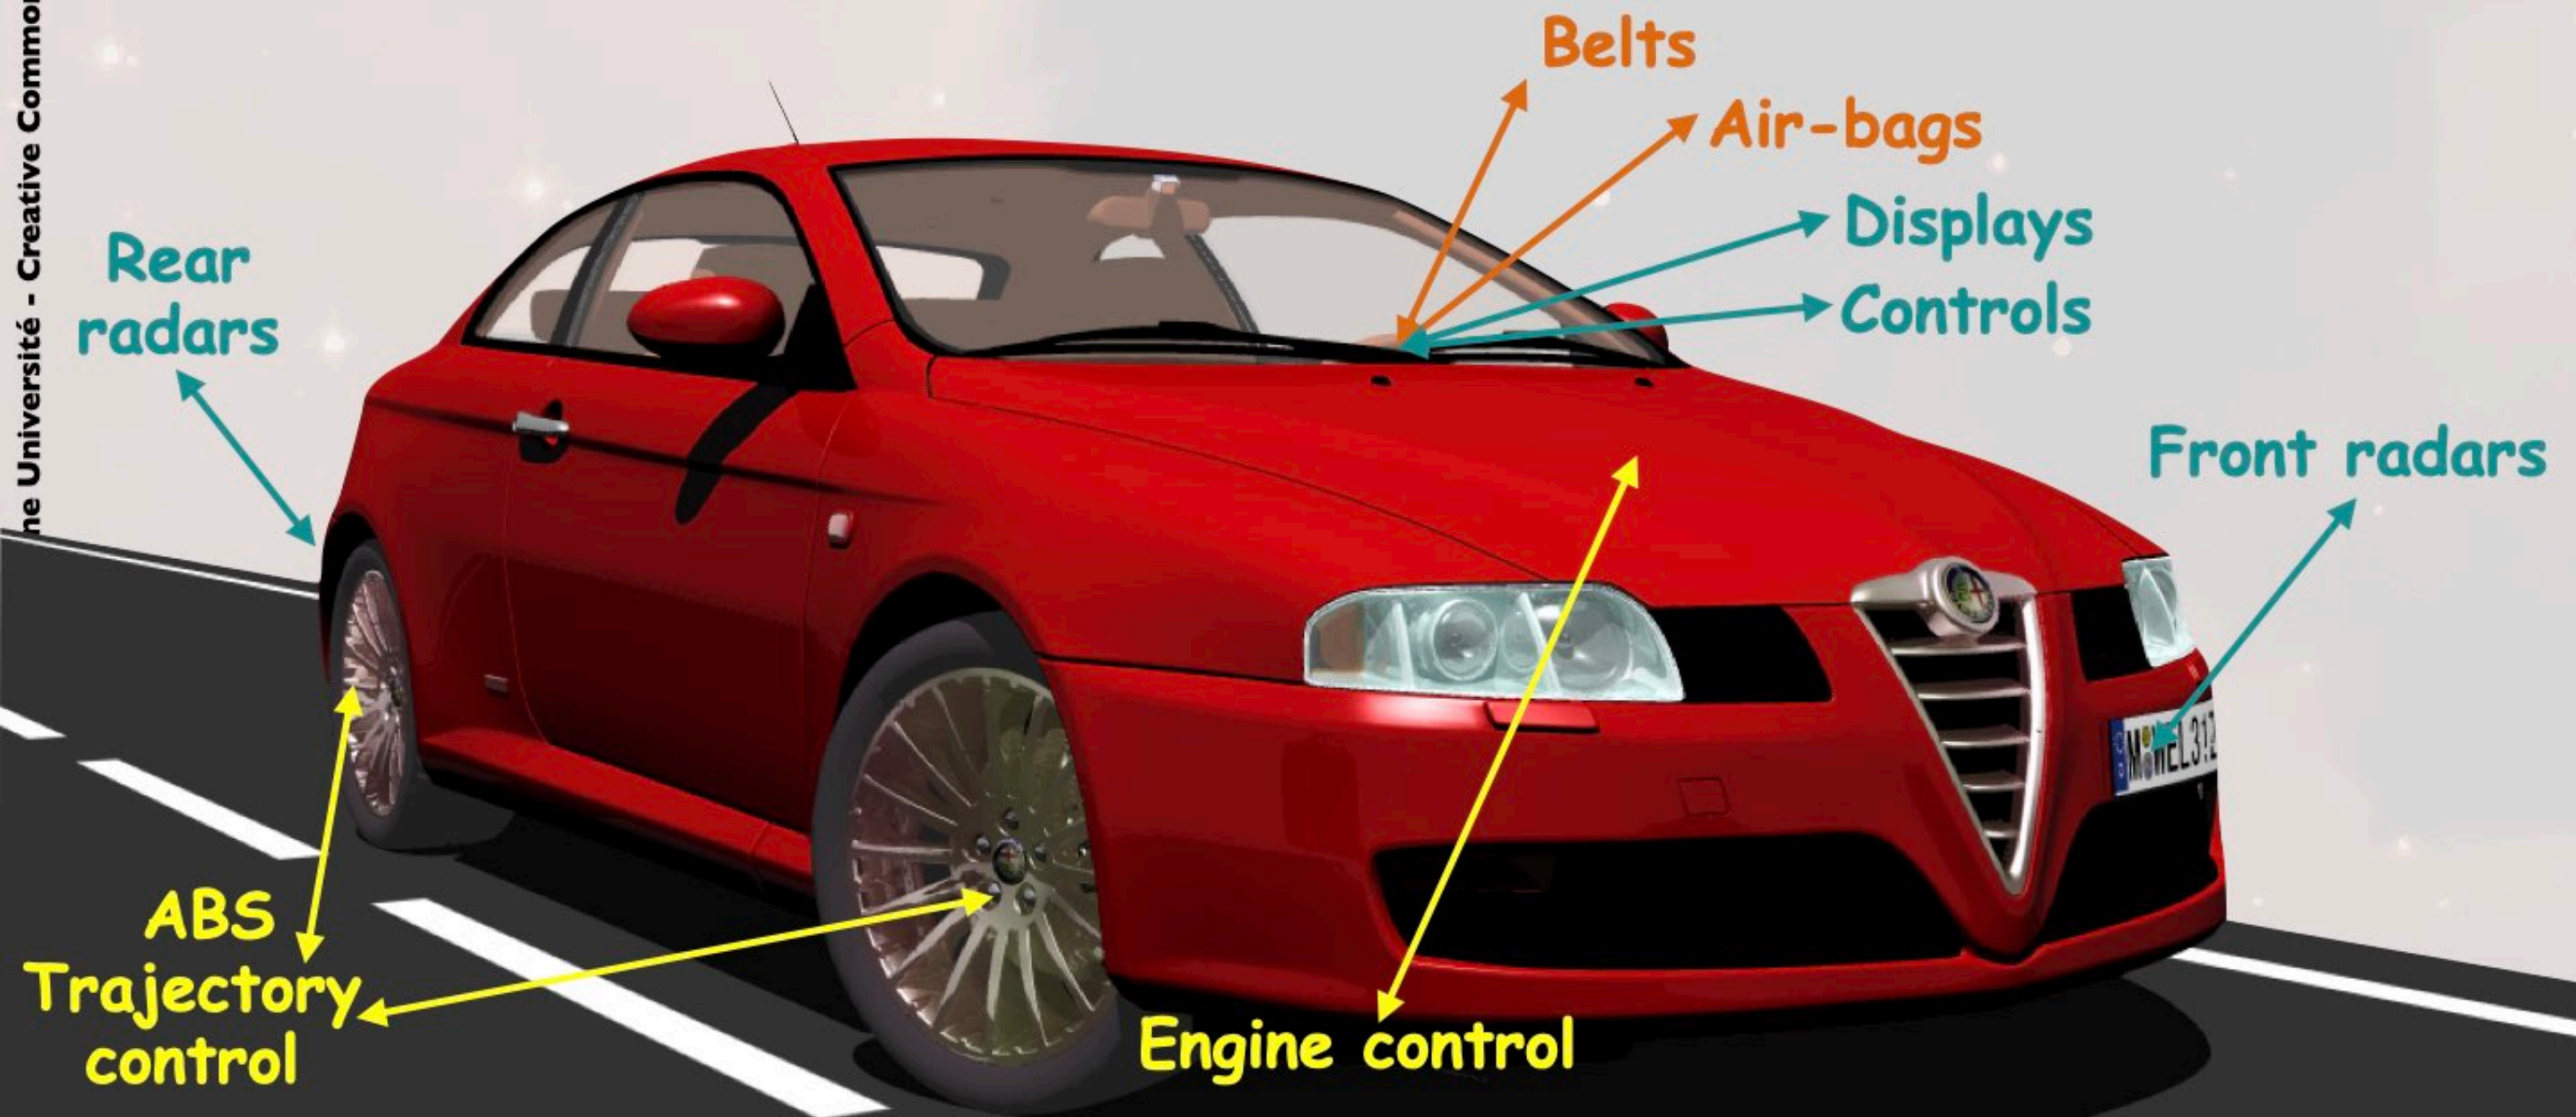

Automobile as an example

4

 **Everything is connected...**

 Even the vehicle itself...

ne Université - Creative Commons 2023

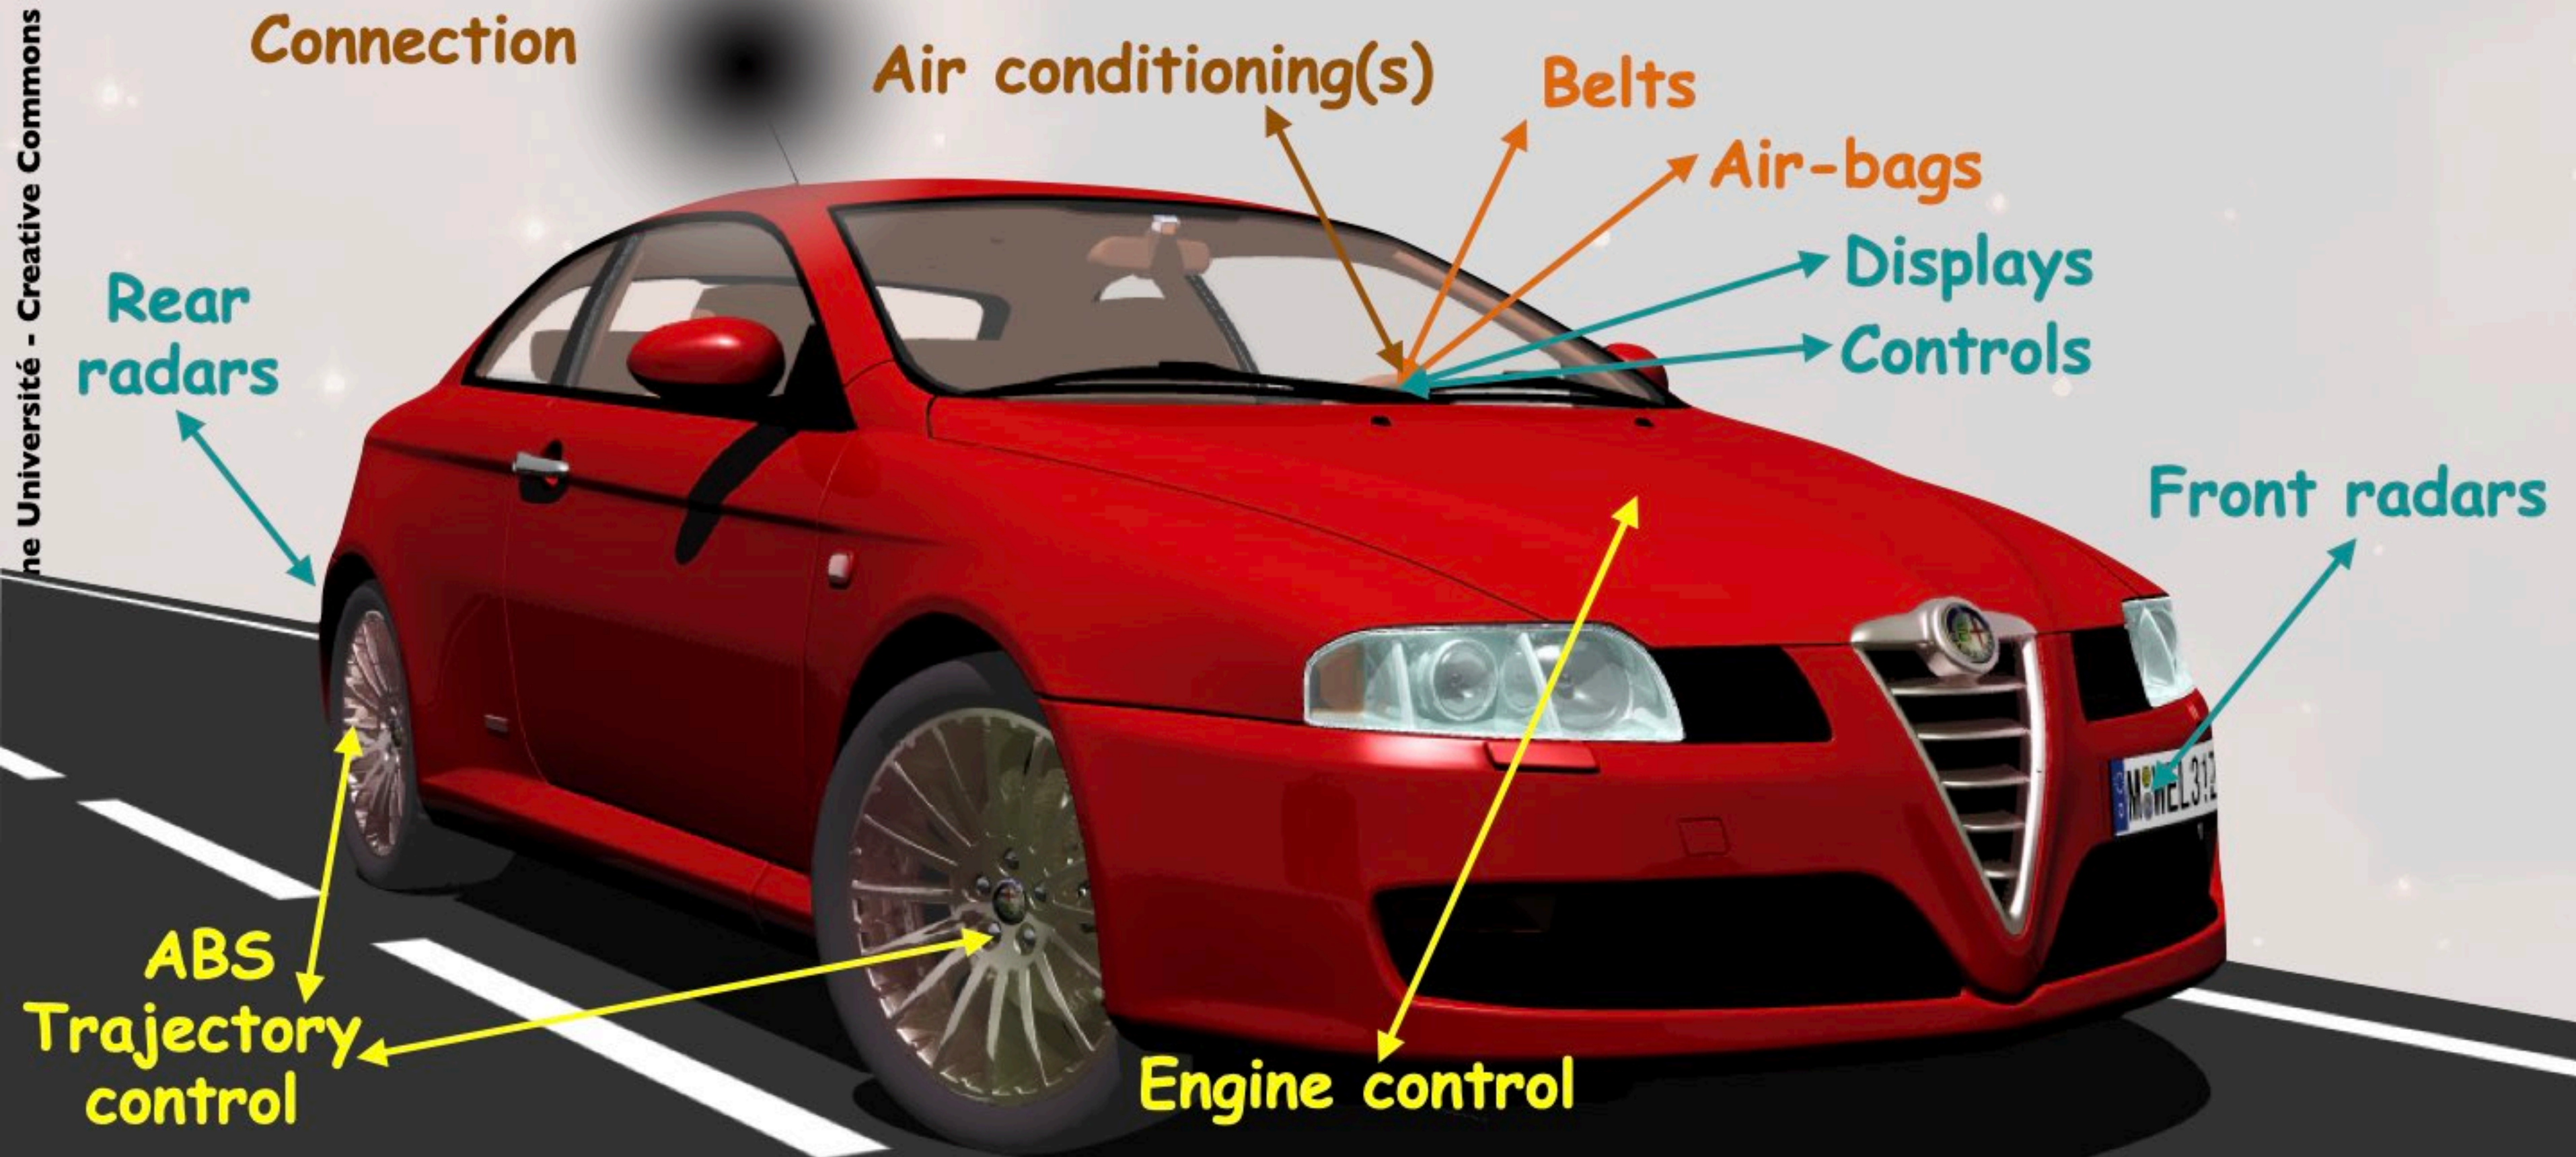

Automobile as an example

4

Practical work / Labs

Online delivery for you + a few hard copies if needed (except week 1)

LU3IN001 this year (2022/2023)

6

 **Now it's running...**

 **Magistral lessons**

-  Online
-  Reached via the companion web site

<https://www-licence.ufr-info-p6.jussieu.fr/lmd/licence/2023/ue/LU3IN001-2023oct/>

► **Licence's web site (UE annual web sites)**

 **Practical work / Labs**

-  As usual @ Sorbonne Université (modulo COVID dispositions)

► <https://moodle-sciences-23.sorbonne-universite.fr/>

-  Remote universities, online help

About communication with students

7

Moodle forums unused in past years

- 🔊 Ergonomic problems outlined
 - ▶ Difficult to register to some discussion threads
 - ▶ Not very friendly

Many students liked **Discord** more... ... during the COVID crisis

- 🔊 Totally unused since 2021/2022
- 🔊 What to use?
 - ▶ The «no question» students...
 - ▶ Email if necessary (those of the whole team, see the compagnon web site)

Online course

8

3 live lessons + 9 online

-  September 7, 2023 (opening)
-  November 17, 2023 (live correction of the first exam)
 - ▶ **First exam to take place on November 2023 (week 45 — November 6-10)**
-  December 1, 2023 (questions & discussions)

-  «Verbatim» Video
 - ▶ **Technical problems two years ago**
 - ▶ **It's better to come (for interactivity) !!!**

The teaching team

9

Coordinator + lessons
Fabrice.Kordon@lip6.fr

Teach. Assistant group 1

Warning!

No reminder of lessons in
practical sessions & labs...

Some (useful) advice

10

Watch videos

-  Before practice

Prepare before practice

-  Based on the lessons
-  Take advantage of the physical presence of your teachers
-  No reminder for lessons
 - ▶ Only answers to precise questions

The «Licence» is not obtained by chance

Companion web site already online

11

Let's go!

-  First week will be loaded
 - ▶ Due to the Java reminders
 - ▶ But no practice this week
-  Following weeks will have less videos
 - ▶ But new notions every week (almost)

Several videos updated...

-  Bug correction (outlined by students)
-  New stuff every year
-  A discussion (issue raised during the final exam)
-  Do not hesitate to contact us if «something strange» remains

Companion web site already online

11

Let's go!

- First week will be loaded
 - ▶ Due to the Java reminders
 - ▶ But no practice this week
- Following weeks will have less videos
 - ▶ But new notions every week (almost)

Several videos updated...

- Bug correction (outlined by students)
- New stuff every year
- A discussion (issue raised during the final exam)
- Do not hesitate to contact us if «something strange» remains

Important!

You may find «community help»
with ALIAS

<http://alias-asso.fr> ?

One last thing

12

About grading in 2023/2024

- 50% on final exam
- 30% on first exam
- 20% on practical work (TD/TME)

Caution

- Please agree (and benefits) from any type of evaluation.
- Strong recommendation, submit your practical work regularly
 - ▶ **Personal work = more training**
- Practical work — clean up keyboards

A last comment

13

About the process

- Before the sanitary crisis
 - ▶ Video plébiscite — preparation of exam + watched everywhere + etc.
- Last years
 - ▶ Would have loved both (based on comments from students)

But

- Course on Friday @ 8h45!!!
- Already observed : rapidly very few participants
 - ▶ Waste of time for everybody

Any question?

14
